

Beginning 1600's Research for the Beginner...DON'T DO IT!!

"None of us can become an expert in family history work without first being a novice." Thomas S. Monson

"You are our living link to the past. Tell your grandchildren the story of the struggles waged, at home and abroad. Of sacrifices made for freedom's sake. And tell them your own story as well--because everybody has a story to tell." George H W Bush

"Our stories...bridge the gap of time and distance, and serve as a powerful motivating source for good." Tad R Callister

If you are the last living link between your grandparents and your grandchildren--don't break the chain.

10,000 Hour Rule: The key to achieving world-class expertise in any skill, is, to a large extent, a matter of practicing the correct way, for a total of around 10,000 hours.
